

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

Gender Equality is one of the most important aspects of human's fundamentals rights and is essential for peaceful and more equitable world. Gender equality is one of the sustainable development goals, and it is integral aspect of all dimensions of sustainable development goals. The institution acknowledges the fact that today India is the youngest nation in the world with 69 percent of its population between 18 to 35 years of age. This demographic dividend that India achieved has to be harnessed for the progress of the nation. Ergo, the institution is very keen on identifying the desires and aspirations of the new generation and the measures to enrich the abilities and professional skills of both boys and girls, without any discrimination. The institution rightly guides the students from their long journey from "human beings to being human" by sensitizing them on issues like gender, social harmony and tolerance. There is no gender discrimination in the work place for both teaching and non-teaching staff.
